7	BY MS. SCHAEFER:	7	Q Okay. The court reporter is taking
8	Q Good morning, Mr. Makanojiya. Is that	8	down everything you say. So it's important that
9	right? Am I pronouncing it correctly?	9	you be clear and you complete your sentences and
10	A Pretty close, yes. Good morning.	10	your words and don't use head gestures like

15	deposition from my home in Maryland. I'm with my	15	questions and I also will try and let you finish
16	co-counsel, Anne Collesano. She also represents	16	your answers before moving on. We don't want to
17	the FTC. She is participating in this deposition	17	interrupt each other so she can transcribe
18 19	remotely as well in her home in Virginia.	18 19	properly. And let me know if you need a break.
20	Quickly just let me go through the	20	Are you currently under the influence of any medication that could affect your ability

24	we're using Zoom to see each other by video.	24	do you see the notice of deposition of Zaappaaz

1	Prior to going on the record, we	1	A I do.

8	Schaefer. I'm here for the FTC.	8	Q Have you seen this document before?
9	Anne, did you want to introduce	9	A I have.
10	yourself?	10	Q Okay. And this notice lists a number
11	MS. COLLESANO: Hi, I'm Anne	11	of topics on which Zaappaaz LLC was required to
12	Collesano. I also represent the FTC.	12	designate someone to provide testimony on the
13	MR. BLANCHARD: This is Michael	13	company's behalf. And Mr. Blanchard informed me
14	Blanchard. I am here in the conference room in	14	that you're being offered as the company's
15	Houston with my client, Mr. Makanojiya.	15	designated representative to testify on all of
16	THE WITNESS: Azim Makanojiya.	16	the topics set forth in the notice; is that
17	BY MS. SCHAEFER:	17	correct?
18	Q Okay. And we're here today to receive	18	A That is correct.
19	sworn testimony from you. Let me go through some	19	Q You are also an individual defendant
20	ground rules. I'll be asking you a series of	20	in this case, and your individual deposition has
21	questions. You're under oath. So you're	21	been noticed for tomorrow. However, for
22	expected to provide a full and truthful answer.	22	efficiency sake, Mr. Blanchard and I agreed to
23	If you don't understand the question, let me	23	take both the 30(b)(6) and the individual
24 25	know. I'll clarify the best I can.	24	deposition at the same time, again in the
25	The court recorder gave you an oath.	25	interest of time and efficiency.

1 2	<b>Do you understand that?</b> A I do.	1 2	have they all been produced to the FTC as far as you know?
3	Q So what I'm going to do is to the	3	A As far as I know, correct.
4	extent I'm asking about the company, I'll make	4	Q You said that you also talked to your
5	clear that I'm asking about Zaappaaz. To the	5	team. Can you tell me who those people are?
6	extent I'm asking about something in your	6	A I spoke with Khalil. I spoke with
7	individual capacity, I'll make sure to clarify	7	Fatima. I spoke with Eroze.
8	that.	8	(Reporter Clarification.)
9	Do you understand those instructions?	9	THE WITNESS: Fatima, F-A-T-I-M-A;
10	A I do.	10	Eroze, E-R-O-Z-E; Khalil, K-H-A-L-I-L. And
11	Q Okay. So have you ever been deposed	11	various other CSR reps.
12	before?	12	BY MS. SCHAEFER:
13	A No. Never.	13	Q Various other what kind of reps?
14	Q Okay. I want to just so we're all	14	A Customer service reps.
15	on the same page, we're going to be talking about	15	MR. BLANCHARD: One second, Michelle.
16 17	covered products in this litigation, and I'm just	16 17	You probably need to slow down while we're
18	going to read the definitions into the record.  This definition comes from Zaappaaz 1, which is	18	talking because it will help the court reporter get everything down. I have to consciously do
19	the 30(b)(6) notice.	19	it. I'll ask you to do it too.
20	So for purposes of this deposition,	20	MS. SCHAEFER: I'm sorry, Mike. I
21	covered products means "any product intended to	21	didn't hear that.
22	detect, treat, prevent, mitigate, or cure any	22	MR. BLANCHARD: I just asked him to
23	disease, including but not limited to, sanitizer,	23	slow down on his speech.
24	sanitizer dispensers, thermometers, medicine,	24	MS. SCHAEFER: Oh, okay. Thank you.
25	medication, and any personal protective equipment	25	BY MS. SCHAEFER:

1	such as face masks, face shields, gloves,	1	Q So customer various customer
2	goggles, gowns, clothing, or other garments,	2	service reps. Who are what are customer
3	equipment, or devices."	3	service reps? What do they do for Zaappaaz?
4	So how did you prepare for today's	4	A Put it in the simplest form, they
5	30(b)(6) deposition?	5	handle customer complaints, calls, back-end
6	A I reviewed the documents that I was	6	related stuff such as inputting tracking numbers,
7 8	provided. I spoke with my team in regards to the	7 8	following up on any customer issues, anything
8 9	questions that were portrayed to me. We had a conversation with the team. I reviewed the	8	related to customer transactions. Let's put it that way.
10	documents, and I just that's the preparation	10	Q And how many customer service
11	I've done so far.	11	representatives does Zaappaaz employ?
12	Q Okay. So how many what kinds of	12	A Zaappaaz employed depending on what
13	documents did you review?	13	period of time we're talking about, but Zaappaaz
14	A FedEx tracking, e-mail marketing,	14	employed only one to two and not customer sales
15	customer complaints, and	15	reps. They don't employ customer sales reps. We
16	Q Did you look at banking documents?	16	are contracted with a company in India who has
17	A Banking?	17	customer sales reps.
18	Q Banking like financial banking?	18	Q Okay. And who did you how many
19	A Yes. Yes, I have.	19	customer reps did you speak to?
20	Q Did you look at payment processor	20	A I mean, if you I don't know how to
21	documents?	21	define it. Over phone, over text. If it's
22 23	A I have, yes.	22 23	text
23 24	Q Advertising? A I have.	23	Q I'm sorry. In preparation for this. We're still talking about in preparation for this
25	Q And the documents that you reviewed,	25	deposition. You said you spoke to various
	2 Ima die accumento mui jou i criencus	==	asposition I on suite jou spone to furious

	13		15
1	customer service representatives. In preparation	1	preparation for this 30(b)(6) deposition, you
2	for this 30(b)(6) deposition, I want to know how	2	spoke to Khalil, Fatima, Eroze, and then various
3	many customer service representatives you spoke	3	customer service representatives?
4	to and who they were.	4 5	A To clarify again, I would like to
5 6	A I wouldn't say specifically for preparation I spoke to customer sales reps, but	6	clarify again, not specifically for the deposition. I have I have kept in mind this
7	it's in the process almost going on for six	7	deposition and got clarity on whatever the
8	months. So it's in the back of my head to kind	8	concerns were that I needed to get clarity on. I
9	of learn and understand the problems we're	9	just want to clarify that.
10	having. Specifically getting on a call for	10	Q Okay. So let me talk about how did
11	deposition, no. But obviously understanding and	11	you other than what you just explained in
12	figuring out what was going on, yes.	12	terms of preparing for this deposition, did you
13	Q And you testified that, you know,	13	prepare any other way in terms of preparing
14	usually you have one to two customer	14	personally for your deposition or did preparing
15	representative agents working for you at a time,	15	personally entail the same prep as preparing for
16	but it depends what time we're talking about.	16	the 30(b)(6) deposition?
17	Let's say in December 2019, how many customer	17	MR. BLANCHARD: Objection. Vague.
18	service agents did Zaappaaz have?	18	You can answer.
19 20	A Let me clarify. We don't have	19 20	THE WITNESS: The same way I would
20	customer sales reps in the U.S.  Q Okay.	20 21	have, yeah. BY MS. SCHAEFER:
22	Q Okay. A We in December 2019, to your	22	Q All right. So let me keep going on
23	question, we had zero employees, I believe. I	23	about these customer service agents.
24	was the only	24	So in 2019, December, you're the only
25	Q Okay.	25	employee; however, you contract with Eroze and
	14		16
1	A I was the only employee at the time.	1	Fatima's company and their company provides
2	Q Okay. And you in terms of	2	customer service agents; is that right?
3	contracting customer service representatives, did	3	A That is correct.
4	you have any contracted customer service	4	Q Did their companies also provide the
5	representatives at that time?	5	designers you spoke of?
6 7	A Absolutely. Yeah.	6 7	A All of them except for, I believe, one at that time.
8	<ul><li>Q How many?</li><li>A Maybe 20, 30, something like that.</li></ul>	8	Q And who was the one at that time?
9	Q And what did they do?	9	A I believe his his nickname I
10	A They were customer service reps. We	10	think his real name is Riyad, R-I-Y-A-D. He was
11	also had designers on the team as well who	11	based out of based out of Bangladesh.
12	created proofs and we	12	Q So now let's get to, let's say,
13	Q What does it mean to create a proof?	13	January/February 2020. Are you still the only
14	A Create a proof is like you order	14	employee?
15	let's say you order a mug and you want your logo	15	A I believe Khalil is onboarded
16	printed on it. The designers would create that	16	February-ish or January, one of those months.
17	digital image so you know how it looks.	17	Q Okay. And why was he onboarded at
18	Q Okay. And so these 20 contractors	18	that time?
19 20	includes designers and customer service representatives?	19 20	A He is honestly, I don't think PPE
21	A And two managers, correct.	20 21	hit around that period. He was just onboarded because we were having I was starting another
22	Q Who are the managers?	22	business on the side, and obviously I was having
23	A Eroze and Fatima. The names I	23	kids. So I wanted to transition over to someone
24	mentioned earlier.	24	that could handle more of day-to-day operations
25	Q Okay. And so you spoke to in	25	on the company side.
	· · · · · · · ·		

MR. BLANCHARD: Hold on.

	. 2ddppdd2, 110, 01 di.		0/11/202
	17		19
1	Q Okay. What was the new business you	1	Responsibilities in January when he is onboarded
2	were starting?	2	or in March?
3	A Various businesses. At that time I	3	MS. SCHAEFER: When he was onboarded,
4	think we were looking into I don't know. I	4	what were his responsibilities with respect to
5	think car covers, I believe. Car covers or some	5	Zaappaaz?
6	e-commerce business we were starting at that	6	THE WITNESS: His responsibilities at
7	time.	7	that time was to take over any any outside of
8	Q And was that business also	8	work that I did.
9	contemplating importing goods from China to your	9	(Reporter clarification.)
10	customers?	10	(Discussion off the record.)
11	A All my businesses mostly require	11	THE WITNESS: Khalil's
12	importing from China, yeah.	12	responsibilities were to handle the day-to-day
13	Q Okay. So he was onboarded around	13	operations for Zaappaaz, handle wire transfers,
14	then. Okay. So that's February that's	14	handle CSR reps in India, adding and removing
15	January/February 2020. Okay. Now let's get to	15	products, giving authorizations to add and remove
16	March 2020. Are you two the only employees, you	16	products, update prices, give guidance on the
17	and Khalil at this time?	17	delivery of products and core basic requirements
18	A I believe so, yes. Correct.	18	on day-to-day operations. My role at that point
19	Q And then what about customer service	19	was to take a step back and give him guidance
20	agents provided by the Khans?	20	wherever they were needed.
21	A Not directly changed but something	21	BY MS. SCHAEFER:
22	around that 20 to 30 figure. I mean, the return	22	Q And okay. So that's in when he was
23	rate is pretty good. It's not that bad. Nothing	23	onboarded?
24	drastically changed.	24	A Correct.
25	Q What do you mean oh, okay.	25	Q I think you said January or February
	What do you mean on, okay.	23	Q I think you said January of February
	18		20
1	MR. BLANCHARD: Michelle, one second.	1	2020. So then March comes along and do his
2	So because we're doing this over Zoom, it would	2	responsibilities change at all?
3	be real helpful if everybody could take a beat	3	A I mean, the companies changed, but I
4	before because we're talking over each other	4	mean, the responsibility, he's still handling the
5	right now. And I just want to see if we can take	5	day-to-day operations of the company, yeah.
6	a minute, you know, before we start, you know,	6	Q And how about from March 2020 through,
7	talking over each other.	7	let's say, August 4th, 2020, which is when we
8	MS. SCHAEFER: Okay. Fair enough.	8	filed the complaint, did his duties change?
9	MR. BLANCHARD: I'm actually adjusting	9	A His duties changed. My duties
10	the microphone volume. Is this any better?	10	changed, yeah. I believe they did change.
11	MS. SCHAEFER: I can hear you well.	11	Q And why did they change?
12	MR. BLANCHARD: Let me know if this	12	A We're a company that never ships goods
13	gets too loud or anything. I'm trying to make it	13	from the U.S., period, or let's not say never.
14	as good as possible.	14	Ninety-nine percent of the time we do not ship
15	MS. SCHAEFER: Maybe bring it down two	15	goods from the U.S. And times were changed, and
16	notches.	16	we had to transition over to a warehouse in the
17	MR. BLANCHARD: Yes.	17	U.S., which if you consider that a duty change,
18	MS. SCHAEFER: Or three. I don't	18	yes, he had to handle a warehouse in the U.S.
19	know.	19	where he had to manage inventory and ship out
20	BY MS. SCHAEFER:	20	inventory from our U.S. office. And my duties
21	Q So did there so right now we're	21	changed where I was supposed to be hands off and
22	March 2020. You and Khalil are employees. What	22	became hands on where I was required to be in the
23	responsibilities does Khalil have at this point	23	warehouse to process orders.
24	when he's onboarded?	24	Q And so were you in the warehouse
25	MR RI ANCHARD: Hold on	25	nrocessing orders through when? Are you still

processing orders through when? Are you still

	21		22
	21		23
1	doing that today? Has that stopped?	1	Q And so before Khalil worked for the
2	A I do not do it today, no.	2	company, who was running the day-to-day
3	Q You're no longer shipping from your	3	operations? Was that you?
4	U.S. warehouse?	4	A Yes.
5	A I am not. We are currently in the	5	Q You were doing everything that then
6	U.S. I am not.	6	you onboarded Khalil to do because you wanted to
7	Q Zaappaaz is currently shipping both	7	spend time with your family and devote time to
8	from the warehouse in China; is that right?	8	other businesses?
9	A That is correct.	9	A Correct.
10	Q Did there ever could a time where	10	Q And he always when he does he
11	Zaappaaz completely stopped shipping from China?	11	still work for you?
12	A No.	12	A He does not.
13	Q Is are you still involved in	13	Q He no longer works for you. How many
14	running Zaappaaz?	14	employees do you currently have?
15	A Absolutely. It's my company.	15	A Two, three including me.
16	Q And so you're still running and while	16	Q Who are the other two?
17	you wanted to hand over the reigns to Khalil,	17	A Kaif.
18	have you not done so presently?	18	Q What's that?
19	A I never handed over the reigns. I was	19	A K, as in kilo, A-I-F, as in frank.
20	always the CEO. Khalil was just a day-to-day	20	I'm not sure of his last name. And then we have
21	operations guy.	21	Salman, S, as in Sam, A-L, as in Larry, M-A-N, as
22	Q Okay. Let's talk about your role	22	in Nancy.
23	then. What is your role and position currently	23	Q And where are they located?
24	at Zaappaaz?	24	A They're in the office, the warehouse.
25	A Currently I am the same role when we	25	Q And what are their responsibilities?
	22		24
1	had Khalil on board and when we didn't have him	1	A Same responsibilities that Khalil had.
2	on board. So I still manage any upper level	2	Q And now they run the day-to-day
3	decisions that need to be made for the company.	3	operations?
4	If if a new vendor needs to be onboarded, he	4	A That is correct.
5	will reach out to me and relay the message. If a	5	Q Are you still at the warehouse?
6	salary increase needs to be done, they will reach	6	A Well, every Monday to Friday, yes.
7	out to me.	7	Q And they report to you?
8	So I'm just trying to give you just	8	A They report to me, correct.
9	kind of like scenarios where they would reach out	9	Q And when did they start working for
10	to me. Any any development work is probably	10	Zaappaaz, Kaif and Salman?
11	nothing that would go through me. It would be	11	A Estimated time, I think this is their
12	mostly done, but if it's a major change on the	12	third month.
13	site, it would be something that would be that	13	Q When did Khalil stop working for
14 15	would go through me.	14 15	Zaappaaz?  A Four months ago, five months ago.
16	Q Okay. And so has it always been your	16	
17	role at Zaappaaz in the past and the present?  A I'm sorry. I didn't understand the	17	Q So you are in charge of the — are you the CEO? Do you have a title? Are you the chief
18	A I'm sorry. I didn't understand the question.	18	executive officer? Are you the president? Are
19	Q So has that okay. Before you	19	you both?
20	were the only employee before Khalil was	20	A I don't think I have given a formal
21	onboarded; is that correct?	21	title, but you could say that I'm the CEO, I
22	A We had employees five years before	22	guess.
23	that. But if you want clarity, I've been mostly	23	Q And when you file your corporate

down -- shut down everything in India. 1

O Okay. And so at that point, no one was working? No customer service representatives were working for Zaappaaz at that point around

Not working in the sense not being employed, no. They were employed still. They were still getting paid. But limited resources, yes. Limited resources. Maybe they didn't have a computer at the house. Maybe they did have a computer and they were just using chat services. They were making use of their time with the resources that they had.

Q Okay. So people -- these customer service agents were providing services, but they were limited. Is that what you're saying? I iust want to know whether the services shut down completely or whether you're saying that they were limited because people maybe didn't have computers. But were some people able to continue providing customer service?

Yeah. I think maybe it's a cultural misunderstanding here. So many of these people are not -- in India, many of the people don't have computers at the house, the luxury that we

March in that case. I was just referring to in general throughout the company. So that was not a timeline specific question. Maybe we were down a day with zero responses.

Q Okay. So when you're talking about maybe you were down a day, you're talking about the entire company; you're not just talking about what's going on in India?

MR. BLANCHARD: Objection. Form. THE WITNESS: I mean, India was --India was my communication to my customers. There was nothing else. So if there was a complete shutoff, it was probably a day, which I really doubt. If there was, it was probably a max of a day during that transition with the government shut down. BY MS. SCHAEFER:

Q And what about -- okay. So I understand that.

How about the limited resources created by the pandemic, how long did that last?

MR. BLANCHARD: Objection. Form. THE WITNESS: How long what lasted? Which resources?

BY MS. SCHAEFER:

have here. So you have to kind of understand that. They don't have the technology

advancements that we have here, nor do they have Internet services at the house. So those are the little cultural differences that we probably need

to put into perspective.

So yes, there might have been some that were fortunate to have Internet, some that were fortunate to have the computer. So I hope you can put that into perspective to kind of understand the question. Yes, some were limited into what they could do and some were completely shut off. They could not do anything because of the resources, they did not have anything.

Q Okay. So are you saying that -- I understand people had limited resources. It's not like it is here in terms of computers.

But did there come a time -- and now we're around March -- where there was just no customer service being provided by the Khans' employees?

It's possible. Maybe -- maybe a day.

Maybe a day. Now let's go to April. Is it the same situation in April?

I'm sorry. I wasn't referring to

Q So we just spoke about, you know, India shut businesses down. The Khans' building was closed. People -- customer service representatives were working from home, but obviously they didn't have the same resources that they had had when they were in the Khans' building, because of what you said, not everyone has computers or you can only use one chat function but maybe not another function that's used to communicate.

So how long did those limitations last with respect to limited resources for the customer service representatives? Did it last --

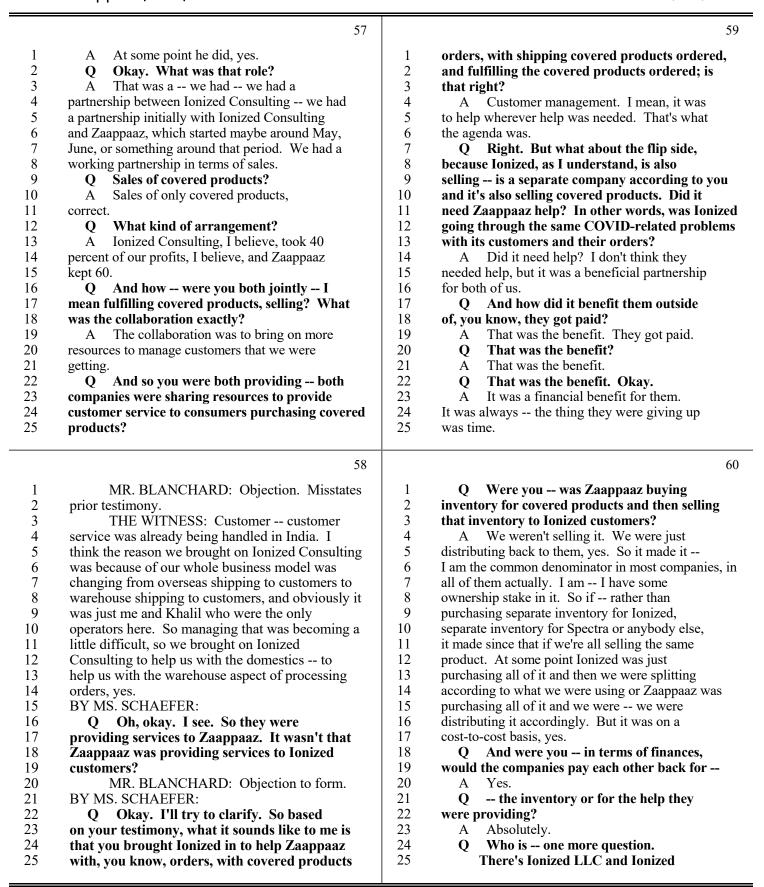

MR. BLANCHARD: Objection. Form.

THE WITNESS: I would say no more than probably -- limitations were always there because it was constant things that were happening that we did not anticipate. But I don't know how to give you an answer to that. I mean, we -- we worked on day-to-day basis to improve -- for example, we sent FedEx shipments to people's houses that could accommodate computers. We sent them computers. People that could accommodate cell phones, we sent them cell phones. So we worked with technology as circumstances were

13	A That is correct.	13	is an e-mail is a the e-mail software is owned
14	Q Does it contain inventory data at all?	14	by someone else. The backend is owned by us. So
15	A No.	15	there's real no way of communication unless we

17	A Yes.	17	don't have a way to link it, there's no way to do

21 22	A Yes. Well, delivery of when it got delivered or when it's supposed to get delivered?	21 22	A That is correct, yeah. So we would have to kind of process everything via e-mail.

The policy was to refund or prorate.

101 103 1 Q And you did have a reasonable basis. The policy was to refund or to prorate or to ship 1 2 What was that reasonable basis? Why did you have 2 the product back. 3 such a reasonable basis? 3 And so let's say someone is promised 4 A The commitment from the manufacturer, 4 your product will ship in 10 days and the product 5 5 doesn't ship in 10 days and they call and they the commitment from the shipping, the logistics companies. 6 say it hasn't shipped, I want to cancel, do you 6 7 7 let them cancel? Q And because of their representation 8 8 that they could deliver -- ship within a certain I think our company went on the basis 9 amount of time, you relied on their 9 the product getting delivered, not shipped. So I 10 think we want to -- maybe want to clarify that. 10 representations? We guarantee the delivery date. So Sure. Correct. 11 11 Α the right way would be the product -- if the 12 Q Let's look at 435.2(a)(4), which is on 12 Page -- that's on Page 4. 13 product got delivered on that date rather than 13 14 shipped on that date. Q Have you read it? 20 A I have. 20 Q Correct. But when you order products, 21 Q Okay. So this is pre-pandemic. 21 you're also -- prior to filing the lawsuit, you 22 What records or documents did you have were guaranteed shipping time as well? 22 23 that established a use of system and procedures A We're guaranteeing a delivery date. 23 24 assuring that shipments could be shipped within 24 Your order is guaranteed to be delivered on. 25 the advertised time? 25 That's what I stated. So technically what you're 102 104 1 The tracking numbers. trying to say is if it's a one-day ship, it 2 The tracking numbers? Anything else? 2 should ship in one day. 3 MR. BLANCHARD: Objection. Form. 3 What I'm trying to tell you, what we THE WITNESS: I'm going to assume 4 offered is a guaranteed delivery date, especially 4 5 that's -- that's the only piece of information 5 the same thing. You're essentially taking the addition of production time and shipping time. that would really be necessary. I don't know if 6 6 7 there's anything else that you're referring to. 7 What I'm trying to tell you, the guaranteed 8 BY MS. SCHAEFER: 8 delivery date. If a customer ordered wristbands 9 Q I mean, I just wanted to know, you 9 and they were supposed to get it Friday and they 10 know --10 got it Saturday, yes, that is delayed. But we 11 A Nothing else. 11 guaranteed a delivery date. 12 -- what records that you relied on to 12 Q This is pre-pandemic? 13 ensure you can ship within the promised time. 13 Even now. Even now. A Okay. Let's look at (b)(1), which is Well, I guess I don't understand. So 14 14 right below that. So go ahead and read it, that someone -- what I have seen is someone goes 15 15 (b)(1) paragraph. 16 online, we can say during the pandemic, and they 16 would pick a product, and then they were allowed 17 Okay. 17 Α 18 And so pre-pandemic, to the extent you 18 to pick the shipping time and then the delivery 19 19 couldn't ship things on time, would you contact date. And then when they get a receipt, it says 20 consumers to offer them refunds or cancellations? 20 shipping days and guaranteed delivery date. So 21 We would not contact them, no. 21 aren't the shipping days how many days it's going 22 And if they contacted you and asked 22 to take to --23 for refunds because products weren't shipped on 23 I think you might -- I think you might time or asked to cancel, what was your policy? 24 have it wrong. We don't have a way for you to 24

105 107 doesn't work like that. When you choose a ask, and then we can take a lunch break. 1 1 2 shipping time, we give you a delivery date. 2 BY MS. We offer different production times, 7 Α I think you had it in Document 2, Page 8 and that is because, for wristbands, if you want 8 Number 2 -- sorry. Where's all the company names 9 to produce 100 wristbands in one day, we need 9 in the document, all the domain names. 10 10 five molds. If you want to produce it in five Yes. That was -days, then we only need one mold. So that's the 11 Α Page Number 6. 11 12 production behind it. 12 The websites? 13 Essentially it's that. I think it's 13 Now delivery dates, how do we make it and it's ready to go, do you want it in one day, 14 missing WB Promotion. Those are all the --14 The DBAs? do you want it three days, do you want it five 15 15 Q days or seven days? So those are the options. There's actually --16 16 Α 17 With the addition of those two gives you a 17 0 What about --18 delivery date. 18 There's actually just two DBAs that I Α 19 Does that make sense? 19 officially follow, which is WB Promotion and 20 Walk me through a transaction of a 20 wristband.com. 21 covered product and what you --21 What about -- what's fastkoozie.com? 22 Yes. A PPE product doesn't 22 Oh, that's there, okay. What about necessarily have a production except for certain 24wristband.com? 23 23 items, which is the cloth mask. The cloth mask 24 24 That's not our company. Α is a custom item because it's not only something 25 25 Okay. Did all of these websites or 0 106 108 I can pick up and just ship it. It requires me **DBAs sell covered products?** 1 2 to pick it up, print your logo on it, and then 2 So let me just explain the structure 3 ship it. So that now requires a production. But 3 of these websites. These websites -like, for example, masks, like surgical masks, do 4 4 Okav. 5 not require any production. Pick up the box and 5 They're all the same. It's just the Right. Let's say it's one of those 8 8 domain is different. 4	MR. BLANCHARD: Let's do 30 minutes.	4	that time or was it solely Chandler Liu?
5	MS. SCHAEFER: We can go off the	5	A At that time if you're referring to
6	record.	6	the time of March and six months after, yeah, we
7	(A lunch recess was taken.)	7	had multiple vendors.
8	BY MS. SCHAEFER:	8	Q Multiple vendors from Mr. Liu?
9	Q So now I want to talk about when	9	A Other vendors that we dealt with to
10	Zaappaaz started selling the covered products.	10	bring in PPE stuff.
11	When did Zaappaaz start looking into selling	11	Q So from March 2020 through, let's say,
12	covered products?	12	December 2020, approximately how many vendors
13	A March middle of March.	13	brokers did you deal with?
14	Q Middle of March is when you started	14	A I want to say maybe three.
15	looking into it?	15	Q And so one was Chandler Liu?
16	A I think so.	16	A Mm-hmm.
17	Q What led you to what led you to	17	Q Who were the other two?
18	want to sell covered products?	18	A Yaoli is an individual who is a
19	A So the city had reached out to me	19 20	sourcing agent of ours we pay. And she is for
20 21	because they knew I did sourcing overseas. So the city reached out to me. I provided them some	20	example, if I need if I need a specific type of a pen, I will send her that, and she will go
22	masks, and then once the city knew that I got the	22	source it out for me. So she's a sourcing agent,
23	masks, they another couple of institutions	23	but she works under us. So she also found
24	reached out to me. Then I was like okay, I'll	24	Q Go ahead. I'm sorry. I interrupted.
25	start bringing in masks. So I started bringing	25	A She also she also finds products
	start orniging in masks. 50 i started orniging		The disc site disc finds products

1	in masks. Then I started getting customers that	1	for us that we that customers require, like
2	started calling can you provide this, can you	2	specific type of products.
3	provide that. So it kind of led to that process.	3	Q How is the relationship with her
4	Q When did you you said you started	4	different than with Chandler Liu?
5	by providing masks?	5	A Chandler Liu has a whole structure
6	A Yes. Correct. Masks.	6	underneath him. Yaoli is an individual who
7	Q And so you started selling masks to	7	basically we can tell her that hey go to the
8	Zaappaaz's consumers?	8	market and see if you can find this product. So
9	A That's correct.	9	she is I don't know. She is just someone that
10 11	<ul><li>Q In March?</li><li>A That's correct.</li></ul>	10 11	we can tell her what to do, I guess. Chandler Liu already has his structure set up where he has
12		12	•
13	Q And were you able to fulfill them timely when you first started?	13	the shipping. He has the factories and everything under him already. Yaoli is going out
14	A Yeah, we were. At the initial phases,	14	and finding these vendors.
15	yeah, because they were shipping directly to	15	Q And so when she finds these vendors,
16	consumers.	16	who packages the products?
17	Q Okay. And well, we'll get into	17	A Yaoli does.
18	that in a minute. So you looked into sourcing	18	Q At her facilities?
19	covered products because cities are getting in	19	A At her house.
20	touch with you as a potential source.	20	Q Does she source I'm talking about
21	Did you go did you turn directly to	21	PPE now, covered products. So she sources a
22	Chandler Liu, or did you look for other brokers?	22	product, brings them to her house, packages them;
23	A Directly to Chandler Liu.	23	is that right?
24	Q And he was able to fulfill covered	24	A Yeah. Most of the time she'll bring
25	products orders at that time?	25	it to her house. If the packages are huge, like

	113		115
1	if it's 50 boxes, she'll just basically leave it	1	of Zaappaaz. She was she's contracted.
2	at the factory. She'll take the labels to the	2	Q So then in those instances where she's
3	factory and have FedEx pick it up there. It's	$\frac{2}{3}$	the middle woman, are you do you enter into
4	just a logistical process, I guess. Whatever	4	contracts
5	logistically makes sense.	5	A No.
6	Q But she takes care of shipping she	6	Q with these vendors in those cases?
7	creates the labels?	7	A No.
8	A She creates the labels, correct.	8	Q What kind of paperwork do you enter
9	Q And takes care of the shipping, okay.	9	into, if any?
10	And then there was a third?	10	A Trust basis.
11	A The third, I don't know the name of	11	Q Not even purchase orders?
12	the company, but it was gowns that were being	12	A No. We there's 100 percent
13	shipped, but I don't know the company's name.	13	purchase orders. There's a PI purchase invoice.
14	It's it was maybe a single or two transactions	14	That's it.
15	that we did where we did shipments of gowns.	15	Q So is that also the case with Mr.
16	Q Okay.	16	Chandler Liu? I don't know why I keep calling
17	A And I want to say I think that was	17	him Mr. Chandler Liu. Is that the same case
18	done via Chandler I want to say. I'm not sure	18	with
19	though.	19	A Yes. Mr. Chandler Liu we have a
20	Q Okay. And are these vendors well,	20	net 30 with him. He'll bill us every 30 days or
21	let me back up. Before lunch, you testified that	21	15 days.
22	you rely on, for example, Chandler Liu to find	22	Q What when he bills you, what is he
23	the suppliers, find the vendors. He enters into	23	billing you for exactly in terms of itemized
24	whatever contractual obligations he has to enter	24	A The goods that he ships. We'll put an
25	into and that you're not involved in that	25	order number and then he'll put whatever he's

Q And so again, when you started selling covered products, you were selling covered products, you were dealing with Mr. Liu, Mr and Yaoli who is a woman and relied on them to source everything and deal with the vendors; is that right?  A Well, with Yaoli, it was a little	2 3 4 5 6 7 8 9 10	shipping.  Q Who pays for the FedEx?  A Before pandemic, he paid he had his own FedEx account that he paid. Now we negotiated better rates with our FedEx account, so he uses our FedEx account, but he pays for it. We pay for it, but he credits us, let's put it that way. A Well, with Yaoli, it was a little different. Yaoli would connect us with the	2 3 4 5 6 7 8 9 10 11 12	shipping.  Q Who pays for the FedEx?  A Before pandemic, he paid he had his own FedEx account that he paid. Now we negotiated better rates with our FedEx account, so he uses our FedEx account, but he pays for it. Q And so again, when you started selling covered products, you were selling covered products, you were dealing with Mr. Liu, Mr and Yaoli who is a woman and relied on them to source everything and deal with the vendors; is that right?  A Well, with Yaoli, it was a little different. Yaoli would connect us with the vendor, and she would be the intermediary	2 3 4 5 6 7 8 9 10 11 12 13	shipping.  Q Who pays for the FedEx?  A Before pandemic, he paid he had his own FedEx account that he paid. Now we negotiated better rates with our FedEx account, so he uses our FedEx account, but he pays for it. Q It started pre-pandemic?  A Correct.
2 3 4 5 6 7 8 9 10 11 12 13 14	contracting aspect and sourcing aspect because you rely on him. Was that the same case for covered products?  A Yeah, I would yes, fair to say.  Q And so again, when you started selling covered products, you were selling covered products, you were dealing with Mr. Liu, Mr and Yaoli who is a woman and relied on them to source everything and deal with the vendors; is that right?  A Well, with Yaoli, it was a little different. Yaoli would connect us with the vendor, and she would be the intermediary which so yeah, sometimes they don't know	2 3 4 5 6 7 8 9 10 11 12 13 14	shipping.  Q Who pays for the FedEx? Q And so again, when you started selling covered products, you were selling covered products, you were dealing with Mr. Liu, Mr and Yaoli who is a woman and relied on them to source everything and deal with the vendors; is that right?  A Well, with Yaoli, it was a little different. Yaoli would connect us with the vendor, and she would be the intermediary which so yeah, sometimes they don't know English, so she would be like the middle person	2 3 4 5 6 7 8 9 10 11 12 13 14 15	shipping. Q And when did that arrangement start? A I think that started maybe November of 2020 I mean 2019, something around there. Q It started pre-pandemic? A Correct. Q Okay. So throughout the pandemic, you've been using your FedEx accounts to ship and

Yaoli would connect us with the vendor, and she would be the intermediary which so yeah, sometimes they don't know English, so she would be like the middle person kind of explaining and mediating all this stuff. Yeah, we would be connected directly to the manufacturer per se in this case because Yaoli is	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	shipping.  Q Who pays for the FedEx? At this point, the pandemic has hit, but you testified that at first when you

Q And so again, when you started selling covered products, you were selling covered products, you were dealing with Mr. Liu, Mr and Yaoli who is a woman and relied on them to source everything and deal with the vendors; is that right?  A Well, with Yaoli, it was a little different. Yaoli would connect us with the vendor, and she would be the intermediary which so yeah, sometimes they don't know English, so she would be like the middle person kind of explaining and mediating all this stuff. Yeah, we would be connected directly to the manufacturer per se in this case because Yaoli is not she's not owning her own company. She's just paid on a salary.  Q And who pays her salary?  A We pay her salary.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	shipping.  Q Who pays for the FedEx?  A Before pandemic, he paid he had his own FedEx account that he paid. Now we negotiated better rates with our FedEx account, so he uses our FedEx account, but he pays for it. We pay for it, but he credits us, let's put it that way.  Q And when did that arrangement start?  A I think that started maybe November of 2020 I mean 2019, something around there.  Q It started pre-pandemic?  A Correct.  Q Okay. So throughout the pandemic, you've been using your FedEx accounts to ship and he has  A No. A mixture of both. They have their own formula that they use. Either their FedEx account is cheaper at times. Our FedEx is cheaper. Their UPS is cheaper.  Q So you start selling masks. It's around mid-March. At this point, the pandemic

117 119 problem begin with shipments and delivery? ordering and I guess congested FedEx's hub. I'm 1 1 2 2 When did the problem began was maybe assuming that from the articles that I have read. 3 3 start of April, first week of April. That is one scenario. 4 Q Okay. And what happened the first 4 The other scenario is overnight 5 5 week of April that affected your business? multiple Chinese regulations were changing. U.S. 6 6 Well, mid-March is when we had the government was saying that bad PPE products are 7 7 lockdown back in Houston, which we had to get being sent from China to the U.S., so in 8 8 special permission to work at the warehouse. So retaliation China halted all shipments that were 9 we got that issue, Number 1. So we had to issue 9 at the hub and had them sent back to the shippers 10 10 that to all our employees for them to come to the and had them certified, which caused another warehouse as essential workers. delay. That's one update. 11 11 Second update, China now says you 12 Can I stop you right there? And when 12 was that where you got permission? 13 13 cannot ship directly to consumers. You have to A Sometime in March -- March -- I don't ship directly -- you cannot ship directly to 14 14 15 know. I wouldn't know the exact date. 15 consumers. You have to ship directly to a 16 At this point though you're still 16 business or -- you can ship directly to an 17 shipping from China. You haven't started 17 address, but it has to be more than X amount of 18 shipping from your warehouse in March; is that 18 kilos. Basically if a customer wanted 10 masks, 19 19 he was not able to get 10 masks directly right? 20 That is correct. Well, yes. March 20 delivered to him. It had a certain weight limit 21 22nd, I believe, is the first order we received 21 put on each shipment that left China. I guess 22 for our PPE stuff. So yes, we were shipping up 22 they wanted more volume to go out rather than 23 quantity go out. So that was another update. 23 until end of March, I think, directly to 24 24 And then the third update was all was customers. 25 Q Up through March? 25 shipped back to the shipper and reclassified any 118 120 End of -- until the end of the month. PPE items that needed to be shipped, needed to be 2 And when did you start shipping out of 2 stamped and certified by a local authority that 3 3 certifies medical devices or whatever their the warehouse in Texas? 4 A Maybe let's just say -- again, around category was before it can be shipped out. And 5 5 end of March to start of April. this is a span of 30 days that these changes are 6 6 happening on a daily basis. Now -- and this Q Okay. So the beginning of April the 7 7 pandemic starts to affect your business. Tell me starts around April-ish. 8 8 how it affected your business exactly. In terms On FedEx's side, limitations are put 9 9 of -on overnight based on how many kilos you can 10 MR. BLANCHARD: Objection to form. 10 ship. FedEx -- so we used to ship about thousand 11 THE WITNESS: How it affected my 11 plus kilos maybe. They limited us to 20 kilos. So what we had, we had multiple accounts with 12 business, my promotional business? Is that what 12 13 you're asking? 13 FedEx. So the loop hole in that was we were able BY MS. SCHAEFER: 14 to ship multiple -- we had multiple limitations 14 15 15 on each account, so that kind of helped us kind Q How it affected the shipment and delivery of goods is what I'm asking. 16 16 of push the products out. And then the other restriction was 17 A Okay. So I think the start of March 17 18 everybody was trying to -- I guess the middle of 18 that you could only ship one package per day to 19 19 March people were starting to kind of fathom what an address. So what we did is friends and family 20 was happening. End of March, everybody went in 20 gave their addresses, and we shipped to those 21 panic mode, I guess. 21 individual friends and family's addresses and

then consolidated all into our warehouse and

things cover? It starts end of March and it goes through what time period?

A I would say probably -- the blunt of it, probably April and May.

Q Okay. Were there still changes occurring in June that were affecting shipment and delivery?

A Well, we were having -- obviously there was a transition happening in India. The shutdown is happening in India. That took a whole aspect to it. The other aspect was employees not wanting to come to work or getting sick or taking precautions because of family at home, whatever that situation was. That was also taken into effect. And then we also had domestic shipping issues where FedEx were not able to do routes certain days due to their staffing issues. So I guess it was a group of issues that were just kind of colliding together to complete the whole process.

Q Okay. So all of these factors obviously affected your ability to deliver products; is that correct?

A Yes.

Q And it affected your ability to ship

something we had to work on the moment. So that's what I'm saying. It's an overnight decision that were being made on different levels of the logistical system. Either it's on custom side, either it's on shipping side. It's not something we anticipated. If we would have anticipated it, we could have probably adjusted to our metrics.

Q I understand that. But what I'm trying to understand is -- what I think you just said was it didn't affect your ability to ship within promised time or advertised times.

A Yeah, I didn't say that. I said it didn't affect our inability to pack the goods in our warehouse. We were running 24-hour shift in our warehouse. But there's other factors that take into play to kind of meet the last mile of the delivery, which is getting it from our facility to the customer. There is something that's unknown there, which is not our company, which is FedEx, or getting the goods from China to our facility. There's a custom blockage there which is not something that we control. So those are things that we don't know.

But in terms of -- if you consider the

## products; is that correct?

A It didn't affect our ability to ship products. I think we were -- we were working 24-hour shifts at some times. So we didn't have -- we didn't have the disability to ship products. The disability was probably receiving products and getting the products out the door. Maybe that's where the constraint was. But don't think time --

Q Sorry. I don't mean to interrupt. So, for example, during the pandemic in March or April, you advertised that some covered products could be shipped the same day or can be shipped rush. Are you saying that these factors you just discussed didn't affect those shipping times and representations?

A No, absolutely not. That's not what I'm saying. I'm saying that those are overnight changes which we didn't anticipate. If we would have anticipated, if FedEx notified us that hey in seven days, you're going to start expecting delays in shipments, we can anticipate that.

But overnight if FedEx says you need to send all your shipments back to the shipper, they need to restamp and send it back, that is warehouse itself, goods were still being packaged. The goods were still being put into a trailer. What was happening after that was something that was not something we anticipated.

Q So are you saying you were able to put it in the hands of the shipper within the right time, but then actually getting it out of the country is what was impacted?

A 100 percent. That is correct.

Q And all these delays and restrictions by FedEx and China in no way affected your ability to be able to ship?

A In the China warehouse, no. In the U.S. warehouse, no. We didn't have -- we didn't have labor shortages that caused us -- prevented us from shipping, let's put it that way, even though we did have people that were getting sick and not able to show up to work. We had ample amount of people to pack and get the orders into FedEx's hands.

So just to put it in perspective, we have a trailer outside our warehouse. We take the packages, pack it and put it inside a trailer. That trailer has to move from there, and that's not something that we move. It's

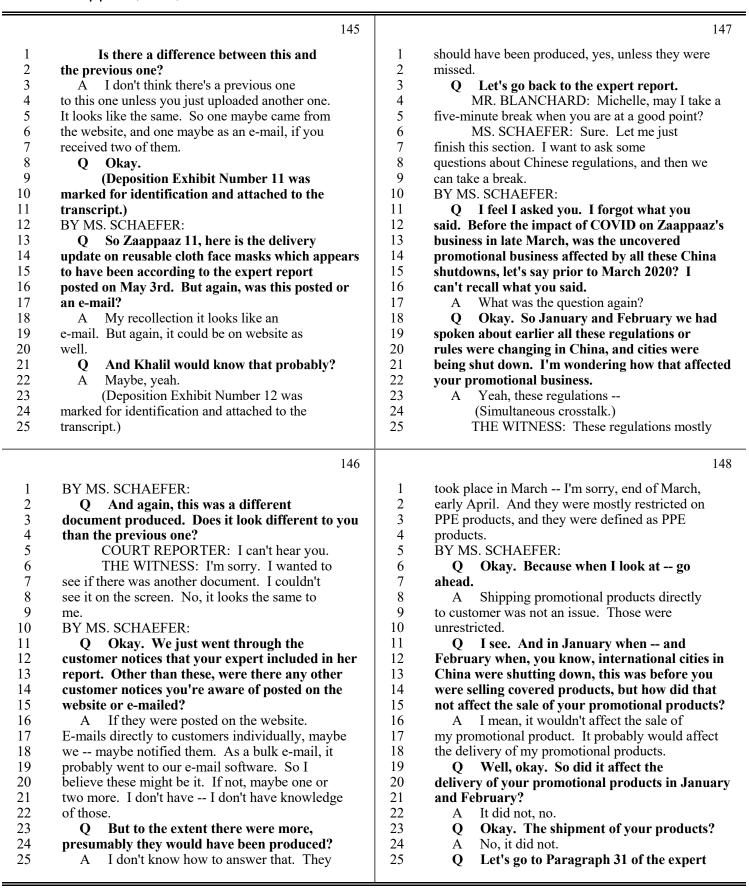

125 127 FedEx that hitches to that trailer and takes it shields. Any inventory problems there? 1 1 2 2 No inventory problems. We had the away on a daily basis. 3 3 Okay. What about inventory, did all goods. 4 these factors in the pandemic create supply issue 4 Okay. Q 5 5 for Zaappaaz in terms of sourcing covered The logistical problems sure, yes. We Α 6 6 had the goods, but I think logistically it was a products? 7 7 I mean -- I guess it comes back to the 8 8 same story. There was a constraint in getting Logistically it was a nightmare. 9 the products delivered or released from customs 9 Elaborate on that. What do you mean by 10 or these blockages that were happening overnight 10 "logistically"? 11 caused the delay for us to receive the inventory. 11 For example, if you have something at 12 Yes, there was -- these are overnight changes 12 your house right now and you want to get it to --13 that we didn't anticipate. Yes, because of that, 13 you want to ship it to Houston, whatever that you definitely have shortages of products that 14 14 parameter is between your house and Houston, 15 you could fulfill. That's correct. 15 whatever is doing that, that is the logistical aspect I'm talking about. Wherever -- whatever 16 Okay. That's not quite my question. 16 17 My question is, did you ever -- did Zaappaaz 17 entities play in between those two Point A and 18 during the pandemic, March through let's say 18 Point B, whoever is playing in between that, 19 December 2020, ever advertise that it had, let's 19 that's what I'm talking about logistically. 20 say, masks in stock, but then when it came time 20 Either it's custom. It's either transportation. Either it's U.S. custom. 21 to actually fulfill it, they weren't in stock 21 22 because of supply and demand issues? 22 So rules and regulations were changing 23 A No. We always had masks. We always 23 because not an influx of these types of products 24 24 were coming in as medical products, and they had masks. 25 25 were -- rules were changing because people like 0 Okay. What about other covered -- you 126 128 always had masks. Are there any other covered us who sell promotional products were starting to 1 2 products which you didn't have enough of to 2 import medical masks. 3 3 fulfill the demand or to fulfill orders? You So I think the U.S. government started 4 4 sell all sorts of products. making a little more enforcement on how to bring 5 5 A I'm trying to answer it the best of my those in and how to validate them, make sure the 6 6 ability. If we -- if we advertise that we are public was safe and all that stuff. Things were 7 7 shipping -- we're shipping sanitizer dispensers, changing on a daily basis and that -- those are 8 8 we had sanitary dispensers. We shipped sanitizer the parameters in between that I'm referring to 9 9 dispensers. But there was -- there was an issue that caused the delay in these issues. 10 in processing those orders, meaning like from our 10 Q Okay. According to you, inventory 11 facility onwards, if that makes sense. 11 wasn't an issue, nor was shipping. It was just 12 In terms of inventory, we never -- I 12 the logistical aspect? 13 don't think there was a scenario where we were 13 Shipping was an issue. Packing was short on inventory because the goods were not an issue. Let's put it that way. 14 14 available in China. The goods were -- wherever 15 O Okay. I guess then what is the 15 goods were available here, we were able to 16 16 difference between packing and shipping? 17 process. But we did not have -- I don't think we 17 A So packing -- in my warehouse when I 18 had an inventory constraint. 18 pack something, I put it inside a FedEx trailer, 19 19 For any of your covered products? and now once the FedEx trailer leaves my 20 Α That's right. 20 facility, that's considered shipping. Make 21 You don't think you had a constraint 21 sense? 22 for any of the covered products that you sell and 22 Q So was there -- did it affect the 23 sold? 23 trailer leaving your facility? 24 24 Yeah. That's what I mentioned. So I'll just name a few. So, for 25 25 example, we talked about masks. There are face That's what I mentioned, correct.

I said there is a little --13 static bar that said because of -- the standard 13 14 message that every company was putting that there's a little bar that goes -- just like how 14 15 because of COVID, there's causal delays and stuff 15 you see the screen that that is -- there's a bar like that. There was a standard message on the that goes on every -- we might even have that bar 16 16 17 bar on the website, and there was constant 17 still. It might just say something else. That 18 updates being done with images of products as 18 bar reflected delivery delays caused by COVID-19, 19 vendors were changing product labels due to 19 and then we had a link to it, which actually I 20 shortages of packaging and et cetera. They changed the shape of their 3 notice of delays being caused because of whatever bottles because they started packaging in bottles 4 is written in this article. 5 5 that were available at that time domestically or I believe after -- it had a little two 6 what they could get their hands on because the 6 sentence written on top, and it said click here world hadn't ever seen these many bottles being 7 for more, and then it gave a little more 8 utilized because now bottles were being utilized 8 general -- more in-depth idea of what the delay 9 for hand sanitizers at a massive volume. Bottles 9 was being caused. 10 were being utilized for hand soap at a massive 10 Q Okay. Well, I don't think I have seen 11 volume. So things like that. Maybe the original 11 any of those documents produced with that bar or 12 bottle looked like a square, now it looks like a 12 that message. 13 circle. So things like that were definitely 13 You might have it in your screenshots 14 I believe. But okay. 14 changing. 15 People were ordering labels from China O Do you have archived copies of the 15 for their packaging. Now they couldn't go to website that would show that? 16 16 China as an option. They had to go domestically. 17 17 Yeah, I think we would have it Domestically, the labels, maybe it was glossy. 18 18 somewhere. 19 19 And we asked for it in discovery, so Now it's not glossy. Well, when a customer orders in because they wanted to limit the small packages 14 March, the complaint usually would come end of 15 going out of China. They wanted large bulk 15 March. 4	A Yes.	4	again. I got confused.
5	Q What's that?	5	A I don't know where these orders are
6	A The total. I think that's the total	6	coming from. So let's say it's shipped from
7	amount total cost of the order.	7	China to the consumer. The trackings will
8	Q What's this tracking?	8	automatically go into our system if the orders

8	Again, we might need to talk to him.	8	all the way until anything that came after 4

12	Q And this is refund amount?	12	Does that make sense?

4	The documents might clear it up.	4	MS. SCHAEFER: Right. So then like
5	Are these refunds indicated in this	5	I'm on can you guys see where my cursor is

7	or these are all refunds?	7	MR. BLANCHARD: Yes.
8	A These are just refunds.	8	BY MS. SCHAEFER:
9	Q These are just refunds via was it a	9	Q So here I'm on AC, and it says
10	chargeback dispute or you guys gave a refund	10	refunded. But then you have a zero refund. So
11	outside of the credit card process; is that	11	what do those mean?
12	right?	12	A One thing I'm seeing right now if you
13	A Correct. I believe this is just	13	look at what is that? 15, 16, and 17, are
14	refunds that we've done.	14	they all the same orders? If you go to the left,
15	Q Okay. So there's 5,152 entries. Does	15	can you just check the customer name?
16	that seem right?	16	Q 15 is no, 15, 16, they're all
17	A 6,152?	17	different.
18	Q Oh, is that 6? Is that 6?	18	A Okay. If you can scroll to the right.
19	A I think it looks like a 6. Yeah.	19	Q This one is canceled zero. It looks
20	Q Okay.	20	like they didn't would that be because they
21	A Yes. I mean, I think it's less than	21	didn't pay anything before it got canceled?
22	that since there's a lot of duplicates in there.	22	A No. If it's a credit card, it gets
23	Like, for example it's pretty close to that	23	charged. It gets charged. Now what I can think
24	number, I guess.	24	that this is, if you do a credit card
25	Q What does it mean in order status that	25	transaction, it goes on hold, and it does not
	Q , , , , , , , , , , , , , , , , , , ,		
	194		196
1	something is canceled?	1	batch. So let's say you place an order now and
2	A Customer returned it. Customer does	2	call in within two hours and want to cancel, the
3	not want it. Customer does not like it. In this	2 3	funds hasn't batched, so it just zeroes out.
4	case, it looks like a duplicate order. The	4	Q Okay.
5	customer placed it twice.	5	A I think that's what it means. But the
6	Q So when an order I'm looking at	6	other one is probably like the one that shows an
7	under AC, the second entry it says canceled and	7	amount, it's probably got batched. It got
8	refund. So that would mean this order was	8	credited to our bank, and then basically, we had
9	canceled and a refund was provided?	9	to issue a refund. So it basically reversed it
10	A Correct.	10	back.
11	Q Correct?	11	Q Okay. Walk me through that again.
12	A Correct.	12	A So if you place an order today,
13	Q And what's the difference between	13	Michelle, you place an order right now, and in an
14	something that's canceled and something that's	14	hour you call me and you say you want to cancel
15	refunded?	15	it, you I don't have the funds nor nor has
16	A Refunded is probably a portion that's	16	the funds come out of your bank either. They
17	refunded. Maybe they didn't want a certain item	17	just basically null it because it hasn't batched.
18	or maybe I don't know. I don't know. I don't	18	Now, if you call me tomorrow, I
19	think not there's any reason for canceled or	19	potentially received the funds already in my
20	refunded. I don't think it holds any bearings	20	bank. Now the bank has to pull the funds out of
21	from my knowledge. I think it's the same	21	my account and put it back into your account.
22	concept.	22	That's where a refund would technically be
23	Q And why is the refund sometimes zero	23	considered a refund. I think that's what it
24	and zero?	24	means.

19	A I think these are these are refunds	19	MR. BLANCHARD: I think they do. And

And you might be able to verify that with 20 Column P based on what it says. 21 Q Okay. And then submission sent to 22 issuer? 23 A Yes. So I believe that basically 24 submits our documents to the issuer. So we give
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q Let's do what we did. This is message date, what does that mean?  A That might be the transaction date. Q Is it the date that the consumer made the order or the dispute was logged?  A The dispute the transaction date is on I. Q Oh, okay. I see. So then this is the chargeback case number?  A Correct. Q Cardholder, this is the acquiring bank; is that right?  A Correct. Q This is the disputed amount, currency. So reason code. Do these come from Stripe?  A Those come from Braintree, if you're saying this Braintree. Q I'm sorry. So here what does that mean?  A It means it's under review. Q Who reviews these transactions? A The processor. Q And who determines whether they're	1 list? 2 A Yes. 3 Q So close case, no issue, or response, 4 does that mean the consumer bank never made a 5 decision? 6 A Maybe they received the products and 7 they didn't want to dispute it any further. So 8 it just got closed. 9 Q Oh, the consumer closed it? 10 A Correct. I think that's what it 11 means. 12 Q Okay. And filing under review? 13 A It's still under review. We submitted 14 our response. They submitted their response, now 15 it's whatever the action needs to be taken. 16 Q And then submission approved? 17 A Submission approved, I believe this 18 might mean that it's approved for us in our 19 favor. And you might be able to verify that with 20 Column P based on what it says. 21 Q Okay. And then submission sent to 22 issuer? 23 A Yes. So I believe that basically

2	Q And then submission under review, it's	2 Q And that means the company won?
3	being considered?	3 A Resolved meaning either we issued a
4	A Yes.	4 refund or the customer agreed. It means that
5	Q And what's your acceptance received?	5 there is no dispute any more. It's been
6	A Okay. So that's something that we	6 resolved.
7	would accept that we accept the dispute.	7 Q Reversal request had been denied?
8	Q And you will give a refund or	8 A No, no. It said reversal something
9	chargeback?	9 has been resolved. Is that what it was?
10	A The processor will do it automatically	10 Q No, I meant first of all, I didn't
11	since it's already the funds are being held.	11 know this was reversal. So
12	All these funds are being held.	12 A Okay.
13	Q All these funds are what's that?	13 Q It says reversal request has been 14 denied.
14 15	A They are being held already.	14 <b>denied.</b> 15 A That means we won. The company won.
16	<ul><li>Q Okay. As reserves?</li><li>A In some sort of fashion, I guess. I</li></ul>	16 Q Right. Okay. I think these all kind

18	Q And this is the mer your merchant	18 let me see. So you won some here and you lost

5	Q I have this dropdown menu, and I want	5 showing what these codes mean?
6	to know okay. Reversal request has been	6 A I do not, no. Maybe it's public data

13	Q So your account will be adjusted and	merchant service provider for Fisery?
14 15	it's coming from the reserves?  A Correct.	14 A So Braintree is a gateway, and First 15 Data or Fiserv is the processor. So I can use
16		Data or Fiserv is the processor. So I can use Fiserv on Braintree. It's just a little gateway
17	Q Reversal request has been denied, is that the consumer lost?	that does the charges. Those are probably coming
18	A Yes.	17 that does the charges. Those are probably conning 18 straight from First Data.
19	Q Do you know the reversal request has	19 Q Okay. Yeah.

21	A What is that?	21 Pay Pal.
22	Q I don't know what everybody saw. It	22 Q Say that what's a processor for Pay

24	MR. BLANCHARD: I think that should	24 A Braintree also can be a processor via

11	Q We can close out of that. We're next on 17; is that right?	11 sum of money, correct.	
12	MR. BLANCHARD: Yes.	12 Q What's at the top here it says, "We
